A few words from our clients...

“We introduced OBA to our G.I. Suite in order to increase our patients’ satisfaction and our productivity. I can state without hesitation that both of these goals have been achieved while providing the highest quality of care. The OBA staff is reliable, professional and caring with our patients and has seamlessly become part of our team. We couldn’t have made a better decision.”

“We are extremely pleased with the anesthesia care provided by OBA. They are a skilled team that provides attention and compassion to each of our patients. The quality of their work has enabled us to grow our business with the confidence that we have a strong and reliable OR partner.”

Office Based Anesthesia, LLC (OBA) is a private practice group of Board Certified anesthesiologists providing safe, cost-effective and quality anesthesia services to ambulatory surgery centers, office-based practices and hospitals. Established more than 35 years ago, we have an excellent reputation throughout the region for integrity, reliability, accountability and safety.

Our experience in ambulatory anesthesia enables us to work effectively with some of the busiest ASC’s as well as medical and dental offices. OBA anesthesiologists have trained at some of the country’s top medical institutions, with many physicians holding additional certifications in critical care medicine, pediatric anesthesia and pain management.

Types of Anesthesia Performed:
- IV Sedation & Monitored Anesthesia Care (MAC)
- Regional Anesthesia/Nerve Blocks
- General Anesthesia
- Conscious Sedation
- Spinal Anesthesia
- Epidural Anesthesia
Meeting and Exceeding Your Anesthesia Needs

Office Based Anesthesia, LLC is proud to offer clients the personalized service and attention of a boutique anesthesia company along with the comprehensive consulting and management services they often require. We believe in building relationships... and each of our clients is extremely important to us.

OBA is here to provide you with peace of mind, so you can perform your procedures knowing the safety of your patient is our total focus. Our ability to work comfortably in the fast-paced environment of the ambulatory setting provides surgeons with the confidence that patients receive unparalleled attention throughout the perioperative process until the patient is ready to be discharged.

An OBA anesthesia technician is available to maintain and deliver necessary equipment, medications and supplies to each site to ensure our arrangement with you is seamless.

We value the level of trust you place in us and welcome the opportunity to assist you with anesthesia services, while maintaining the highest level of safety standards for your patients.
